

Quality Policy

Gill Plant's purpose of being is to offer all companies - irrespective of size or turnover - access to high quality groundworks labour at reasonable prices. We will source the most robust machinery and ensure it is maintained to the highest standards with our team of dedicated in-house engineers to minimise environmental impact. Whether we are selling machines or hiring them out, we will hold ourselves and our machines to the highest standards – as identified by ISO9001 - of quality, safety and performance.

This policy shall be deployed through:

- Continual in-house training and development of engineers and personnel to ensure they are up-to-date with the latest techniques and technologies relevant to their roles
- Continual upgrading of machinery and tools in-house to ensure all work can be carried out to the highest standards
- Continual research into new and emerging technologies in the plant machinery industry
- Cost reduction through the elimination of waste in all business processes
- Development of human resources
- Continued improvement of internal systems to streamline processes, increase efficiency and improve customer service
